

Assembly Bill No. 521

CHAPTER 802

An act to amend Section 3212.6 of the Labor Code, relating to workers' compensation.

[Approved by Governor September 22, 1996. Filed
with Secretary of State September 24, 1996.]

LEGISLATIVE COUNSEL'S DIGEST

AB 521, Aguiar. Workers' compensation.

Under existing law, a person injured in the course of employment is generally entitled to receive workers' compensation on account of that injury. Existing law provides that, in the case of certain law enforcement officers and firefighters, the term "injury" includes tuberculosis that develops or manifests itself during a period while the member is in the service of the department or office.

This bill would extend those provisions to prison and jail guards and correctional officers employed by a public agency. Since the bill would require the payment of additional benefits by local agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 3212.6 of the Labor Code is amended to read:

3212.6. In the case of a member of a police department of a city or county, or a member of the sheriff's office of a county, or an inspector or investigator in a district attorney's office of any county whose principal duties consist of active law enforcement service, or a prison or jail guard or correctional officer who is employed by a public agency, when that person is employed upon a regular, full-time salary, or in the case of members of fire departments of any city, county, or district, or other public or municipal corporations or

political subdivisions, when those members are employed on a regular fully paid basis, and in the case of active firefighting members of the Department of Forestry and Fire Protection whose duties require firefighting and first-aid response services, or of any county forestry or firefighting department or unit, where those members are employed on a regular fully paid basis, excepting those whose principal duties are clerical or otherwise do not clearly fall within the scope of active law enforcement, firefighting, or emergency first-aid response service such as stenographers, telephone operators, and other officeworkers, the term “injury” includes tuberculosis that develops or manifests itself during a period while that member is in the service of that department or office. The compensation that is awarded for the tuberculosis shall include full hospital, surgical, medical treatment, disability indemnity, and death benefits as provided by the provisions of this division.

The tuberculosis so developing or manifesting itself shall be presumed to arise out of and in the course of the employment. This presumption is disputable and may be controverted by other evidence, but unless so controverted, the appeals board is bound to find in accordance with it. This presumption shall be extended to a member following termination of service for a period of three calendar months for each full year of the requisite service, but not to exceed 60 months in any circumstance, commencing with the last date actually worked in the specified capacity.

A public entity may require applicants for employment in firefighting positions who would be entitled to the benefits granted by this section to be tested for infection for tuberculosis.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars (\$1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.
